

800M!

SERUM HYBRID 808

7 SKIES – 800M!

Thank you for demoing this Standalone-Music product.

We are a small company driven by the passion for music and your interest in our products means a lot to us!

This Demo Soundbank contains 2 of the 70 Presets that you find in 800M!

All these presets and sounds are designed to be perfect for Trap, Rap, Hip-Hop, Pop and Future Bass.

However, we have no doubts that you will be able to use these presets everywhere you please no matter the genre.

We put countless hours into making our Soundbanks, and we cannot wait to hear what great music these presets will help you create!

For the full version of 800M! please check:

Please note that Version 1.113 is Required in order to use this Soundbank, if you have an older version, please update from Xfer Website.

PRESETS INSTALLATION

- 1) In the Serum Menu on the top right click on "Show Serum Preset Folder"
- 2) You will be taken to a folder in your HD called "Serum Presets"
- 3) Simply put the "STANDALONE-MUSIC.COM | 8OOM DEMO By 7 SKIES" into the folder "Presets" located in "Serum Presets".
- 4) In Serum Click on "Rescan folders on disk", Serum will add the presets, and wavetables to the respective lists.

ENJOY!

David | 7 Skies & The Standalone-Team
